YUSUF SEMIH UCA

UNITY GAMEPLAY DEVELOPER

C# / GAME SYSTEMS / INTERACTIVE AUDIO

Istanbul, Türkiye / yusemuca@gmail.com

github.com/yusufuca / yusufuca.github.io

PROFILE

Unity/C# developer building gameplay architecture, data-driven systems, custom tooling and interactive audio. Seven years of professional experience in live sound engineering, system design and studio production.

TECHNICAL SKILLS

PROGRAMMING	C#, OOP, finite state machines, interfaces, event-driven systems, coroutines
UNITY	CharacterController, Animator, ScriptableObjects, Input System, physics, raycasting, pooling
SYSTEMS	Data-driven design, Unity Editor tooling, asset pipelines, procedural acoustics, adaptive music
AUDIO / TOOLS	FMOD Studio, REAPER, Cubase, Logic Pro X, Git, GitHub

SELECTED PROJECTS

UNITY / C#

Roguelite Demo

GITHUB

Gameplay architecture / Unity, C#

- Independently built concurrent movement/combat FSMs, timed attack phases, hit detection and reactions.
- Implemented patrol/chase AI, pooling, and ScriptableObject-based skills, buffs and cooldowns.

Super Interdimensional Fight Bonanza

PLAY

DreamLayer Game Jam / Unity, C#, FMOD

- Developed QTE-driven boxing combat and ScriptableObject-configured fighters.
- Integrated FMOD interactive audio and published a playable WebGL game.
- Created an AI-assisted Unity Editor tool for DreamLayer API asset generation, download and import.

16BarLogic

GITHUB

Adaptive music / Unity, C#, FMOD

- Built a seven-state music FSM with BPM/bar-quantized transitions, state timers and priority locks.

DSP-DEMO

GITHUB

Procedural acoustics / Unity, C#, FMOD

- Built procedural room-reverb and raycast occlusion systems, mapping acoustic parameters to FMOD reverb DSP.

Merge Fruits

GITHUB

2D physics game / Unity, C#

- Built physics-driven fruit merging, scoring and touch/mouse input using ScriptableObject data.

PROFESSIONAL EXPERIENCE

2024 - PRESENT — **Freelance / Touring Sound Engineer**
FOH/monitor mixing for Vega, Skapova and Rana Türkyılmaz.
Digital consoles: DiGiCo SD, Yamaha CL/DM, Allen & Heath Avantis, Soundcraft Vi, Midas M32.

2025 - 2026 — **System Design Consultant · Capa Pera**
L-Acoustics system design, deployment and Soundvision tuning.

2023 - 2025 — **Sound Engineer · Dorock (XL & Venue)**
FOH/monitor mixing, house system tuning and signal-chain management.

2019 - 2023 — **Sound Engineer & Studio Technician**
Live sound operations, studio recording, editing and mixing.
